MOMENT IN TIME Peter Sargent 2017-09-30 It only takes a moment to change the world. Our past is littered with these moments; from the grandest in the land - a Queen claiming her crown at a Suffolk castle - to the humblest - a workman whitewashing religious pictures in a church. These moments in time helped create our history in East Anglia. In this book, former journalist Peter Sargent takes us on a journey in time, from the mysterious ancient figure of the Green Man in Norwich Cathedral, via the day King Charles II rode a winner at Newmarket's racetrack on to Second World War soldiers preparing for the D-Day landings in woods on the Norfolk-Suffolk border. In this series of short stories, many of which first appeared in the Eastern Daily Press newspaper, encounter famous figures who made their mark on the eastern counties. Here is Oliver Cromwell raising an army, Queen Elizabeth I making a Royal Progress, while her sister Mary plays a game of thrones, highwayman Dick Turpin goes about his nefarious business and Norfolk squire and Britain's first Prime Minister, Robert Walpole, saves the country from financial ruin. You'll also meet less familiar figures and veer off the beaten track. Here are tales of a Cambridgeshire Iron Age 'hill fort', Norfolk's raffish 19th Century bare knuckle boxers and the sailors who fought a huge, but barely remembered, 17th Century sea battle off the Suffolk coast.

Rape Mithu Sanyal 2019-05-14 A bold, honest and unflinching look at the way we talk and think about rape.

From Title IX cases on campus, to #metoo and #timesup, rape is a definitive issue at the heart of feminism, and lately, it's barely out of the news. Cultural critic Mithu Sanyal is picking up where Susan Brownmiller left off in her influential 1975 book *Against Our Will*. In fact, she argues that the way we understand rape hasn't changed since then, even as the world has changed beyond recognition. She contends that it is high time for a new and informed debate about rape, sexual boundaries and consent. Sanyal argues that the way we as a society understand rape tells us not just how we understand sexual violence, but how we understand sex, sexuality, and gender itself. For instance, why is it so hard to imagine men as victims of rape? Why do we expect victims to be irreparably damaged? When we think of rapists, why do we still think of strangers in dark alleys, rather than uncles, husbands, priests, or boyfriends? The book examines the role of race and the trope of the black rapist, the omission of male victims, and what we mean when we talk about rape culture. She provocatively takes every received opinion we have about rape, and turns it inside out - arguing with liberals, conservatives, feminists and sexists alike.

Oracle Ian Watson 2011-09-29 When Tom Ryan stops his car late at night on a dark road for a man dressed as a Roman centurion, his first thought is that he's picked up one of those amateur re-enactors but the man, Marcus Appius Silvanus appears to speak only Latin. He insists the year is AD60 and that the British Queen is Boudicca - and that he and his men of the Fourteenth Gemina are in hot pursuit of her. Tom and his sister Mary shelter the Roman, but inadvertently attract the attention of an unscrupulous journalist. He's not the only one interested in the Ryans: an IRA terrorist who was once Mary's lover in Northern Ireland tracks her down to tell her the plane crash which killed her parents twenty years ago was caused by the British security services. Deep in the English countryside, those same servants of the state are busy exploiting the theories of a young prodigy to build 'Oracle', a probe that can view the past - and, they hope, the future, so that threats to national security can be stifled before they occur.

Boudicca's Rebellion AD 60–61 Nic Fields 2011-04-19 When the Romans occupied the southern half of Britain in AD 43, the Iceni tribe quickly allied themselves with the invaders. Having paid tribute to Rome, they continued to be ruled by their own kings. But 17 years later, when Prasutagus, the king of the Iceni, died, the Romans decided to incorporate his kingdom into the new province. When his widow Boudicca protested, she "was

flogged and their daughters raped", sparking one of the most famous rebellions in history. This book tells how Boudicca raised her people and other tribes in revolt, overran the provincial towns of Camulodunum (Colchester), Londinium (London) and Verulamium (St Albans), destroyed the IX Legion, and nearly took control of the fledgling Roman province, before being finally brought to heel in a pitched battle at Mancetter.

Boudica Richard Hingley 2006-06-21 Boudica, or Boadicea, queen of the Iceni, led a famous revolt against Roman rule in Britain in AD 60, sacking London, Colchester and St Albans and throwing the province into chaos. Although then defeated by the governor, Suetonius Paulinus, her rebellion sent a shock wave across the empire. Who was this woman who defied Rome? Boudica: Iron Age Warrior Queen is an account of what we know about the real woman, from classical literature, written for the consumption of readers in Rome, and from the archaeological evidence. It also traces her extraordinary posthumous career as the earliest famous woman in British history. Since the Renaissance she has been seen as harridan, patriot, freedom fighter and feminist, written about in plays and novels, painted and sculpted, and recruited to many causes. She remains a tragic, yet inspirational, figure of unending interest.

Historical Fiction for Children Fiona M. Collins 2013-10-18 Historical fiction has a great deal to offer as its readers and devotees have always known. The time is ripe however for the historical novel and historical picture book to be promoted more emphatically so that many more are made aware of the delight and learning to be found in the genre. The editors of this book invited authors, academic writers and teachers to reflect on the nature, scope, range and richness of historical fiction for children. What is collected here provides an overview of the field, a consideration of significant writers of historical fiction from the nineteenth century onwards, a sense of the various historical eras commonly explored (Stone Age to World War 2), a discussion of commonly raised issues, themes and topics such as child labor, slavery and migration, and a forum for writers to reveal their insights into the writing of historical fiction. Julian Atterton, Berlie Doherty, Michael Foreman and Philip Pullman have made contributions. It provides evidence of children and students engaging creatively with historical fiction.

Boudica Britannia Miranda Aldhouse-Green 2014-05-01 When Roman troops threatened to seize the wealth of the Iceni people, their queen, Boudica, retaliated by inciting a major uprising, allying her tribe with the neighbouring Trinovantes. The ensuing clash is one of the most important - and dramatic - events in the history of Britain, standing testament to what can happen when an insensitive colonial power meets determined resistance from a subjugated people head-on. In this fascinating account of a legendary figure, Miranda Aldhouse-Green raises questions about female power, colonial oppression, and whether Boudica would be seen

today as a freedom fighter, terrorist or martyr.

Queen Boudica and Historical Culture in Britain Martha Vandrei 2018-06-21 Taking a long chronological view and a wide-ranging, interdisciplinary approach, this is an innovative and distinctive book. It is the definitive work on the posthumous reputation of the ever-popular warrior queen of the Iceni, Queen Boadicea/Boudica, exploring her presence in British historical discourse, from the early-modern rediscovery of the works of Tacitus to the first historical films of the early twentieth century. In doing so, the book seeks to demonstrate the continuity and persistence of historical ideas across time and throughout a variety of media. This focus on continuity leads into an examination of the nature of history as a cultural phenomenon and the implications this has for our own conceptions of history and its role in culture more generally. While providing contemporary contextual readings of Boudica's representations, Martha Vandrei also explores the unique nature of historical ideas as durable cultural phenomena, articulated by very different individuals over time, all of whom were nevertheless engaged in the creative process of making history. Thus this study presents a challenge to the axioms of cultural history, new historicism, and other mainstays of twentieth- and twenty-first- century historical scholarship. It shows how, long before professional historians sought to monopolise historical practice, audiences encountered visions of past ages created by antiquaries, playwrights, poets, novelists, and artists, all of which engaged with, articulated, and even defined the meaning of "historical truth." This book argues that these individual depictions, variable audience reactions, and the abiding notion of history as truth constitute the substance of historical culture.

Boudica's Odyssey in Early Modern England Samantha Fr n e-Hutchins 2016-04-15 This diachronic study of Boudica serves as a sourcebook of references to Boudica in the early modern period and gives an overview of the ways in which her story was processed and exploited by the different players of the times who wanted to give credence and support to their own belief systems. The author examines the different apparatus of state ideology which processed the social, religious and political representations of Boudica for public absorption and helped form the popular myth we have of Boudica today. By exploring images of the Briton warrior queen across two reigns which witnessed an act of political union and a move from English female rule (under Elizabeth I) to British/Scottish masculine rule (under James VI & I) the author conducts a critical cartography of the ways in which gender, colonialism and nationalism crystallised around this crucial historical figure. Concentrating on the original transmission and reception of the ancient texts the author analyses the historical works of Hector Boece, Raphael Holinshed and William Camden as well as the canonical literary figures of Edmund Spenser, William Shakespeare and John Fletcher. She also looks at aspects of other primary sources not covered in previous scholarship, such as Humphrey Llwyd's Breuiary of Britayne (1573), Petruccio Ubaldini's Le Vite delle donne illustri, del regno d'Inghilterra, e del regno di Scotia (1588) and Edmund Bolton's Nero Caesar (1624). Furthermore, she incorporates archaeological research relating to Boudica.

Exploring Time and Place Through Play Hilary Cooper 2012-09-10 This book is packed with fun and exciting activities that enable the child to make sense of the world that they live in and relate it to their own experiences in order to enhance their personal and social development.

Boudica Vanessa Collingridge 2012-09-30 Boudica has been immortalised throughout history as the woman who dared take on the Romans - an act of vengeance on behalf of her daughters, tribe and enslaved country. Her known life is a rich tapestry of wife, widow, mother, queen and Celtic quasi-Goddess. But beneath this lies a history both dark and shocking, with fresh archaeological evidence adding new depth and terrifying detail to the worn-out myths. From the proud warrior tribes of her East Anglian childhood to the battlefields of her defeat, this

is a vividly written and evocatively told story, bringing a wealth of new research and insight to bear on one of the key figures in British history and mythology. From the author of the much-praised Captain Cook comes a major new historical biography; a gripping and enlightening recreation of Boudica, her life, her adversaries, and the turbulent era she bestrode.

History and English in the Primary School Pat Hoodless 2002-01-22 Changes to the primary curriculum over recent years have widened choice for all, yet the current wave of thinking seems determined to retreat 'back to basics'. This vibrant volume examines the many ways in which history can include and complement the teaching of English, to the greater benefit of both. Enthusiastic practitioners explain how lively classroom activities can influence the level of children's literacy, which means that the importance of the basics is recognised without compromising on the choice of subjects open to children. History emerges as a wonderful tool for exploring not only language and literature, but also as a way of stimulating the imagination and encouraging talk. The contributors here are all passionate about this vital link between two complementary subject areas and will convincingly win you over. The book is an invaluable companion for the student teacher, primary teacher and teacher educator.
