The Use of Force in International Law Tom Ruys 2018-04-26 The international law on the use of force is one of the oldest branches of international law. It is an area twinned with the emergence of international law as a concept in itself, and which sees law and politics collide. The number of armed conflicts is equal only to the number of methodological approaches used to describe them. Many violent encounters are well known. The Kosovo Crisis in 1999 and the US-led invasion of Iraq in 2003 spring easily to the minds of most scholars and academics, and gain extensive coverage in this text. Other conflicts, including the Belgian operation in Stanleyville, and the Ethiopian Intervention in Somalia, are often overlooked to our peril. Ruys and Corten's expert-written text compares over sixty different instances of the use of cross border force since the adoption of the UN Charter in 1945, from all out warfare to hostile encounters between individual units, targeted killings, and hostage rescue operations, to ask a complex question. How much authority does the power of precedent really have in the law of the use of force?

Walking the Land, Feeding the Fire Aalice Legat 2012-11-08 In the Dene worldview, relationships form the foundation of a distinct way of knowing. For the Tlicho Dene, indigenous peoples of Canada's Northwest Territories, as stories from the past unfold as experiences in the present, so unfolds a philosophy for the future. Walking the Land, Feeding the Fire vividly shows how—through stories and relationships with all beings—Tlicho knowledge is produced and rooted in the land. Tlicho-speaking people are part of the more widespread Athapaskan-speaking community, which spans the western sub-arctic and includes pockets in British Columbia, Alberta, California, and Arizona. Anthropologist Aalice Legat undertook this work at the request of Tlicho Dene community elders, who wanted to provide younger Tlicho with narratives that originated in the past but provide a way of thinking through current critical land-use issues. Legat illustrates that, for the Tlicho Dene, being knowledgeable and being of the land are one and the same. Walking the Land, Feeding the Fire marks the beginning of a new era of understanding, drawing both connections to and unique aspects of ways of knowing among other Dene peoples, such as the Western Apache. As Keith Basso did with his studies among the Western Apache in earlier decades, Legat sets a new standard for research by presenting Dene perceptions of the environment and the personal truths of the storytellers without forcing them into scientific or public-policy frameworks. Legat approaches her work as a community partner—providing a powerful methodology that will impact the way research is conducted for decades to come—and provides unique insights and understandings available only through traditional knowledge.

Scrutiny of arms export controls (2012) Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee 2012-07-13 The Committees on Arms Export Controls (CAEC) believe that the Government should apply significantly more cautious judgements on the export of arms to authoritarian regimes which might be used for internal repression. The Committees have scrutinised in unprecedented detail the Government's latest (2010) Annual Report on Strategic Export Controls (HC 1402, session 2011-12, ISBN 9780102973662), the Government's quarterly information on individual export licence approvals and refusals, and the Government's policies and performance on arms export controls and on arms control generally. The Committees conclude that the Government's review of its policies and practices on arms exports following the Arab Spring should not have been carried out merely as "an internal review" and should instead have been the subject of public consultation in accordance with the Government's stated policy of transparency on arms exports. And whilst the Government's introduction of a new licence suspension mechanism is welcome, this is not sufficient to ensure that arms exported are not used for internal repression overseas because in many cases the arms will have left the UK before suspension occurs. The Government should extend its arms export policy review from countries in the Middle East and North Africa to authoritarian regimes and countries of human rights concern worldwide. Annex 7 of the report gives selected arms export licence approvals by the Government to countries of human rights

concern, and the report also contains details of the extant UK Government approved arms export licences to Argentina, Bahrain, Egypt, Libya, Saudi Arabia, Syria, Tunisia and Yemen.

Aboriginal and Treaty Rights in Canada Michael Asch 2011-11-01 In the last two decades there has been positive change in how the Canadian legal system defines Aboriginal and treaty rights. Yet even after the recognition of those rights in the Constitution Act of 1982, the legacy of British values and institutions as well as colonial doctrine still shape how the legal system identifies and interprets Aboriginal and treaty rights. The eight essays in Aboriginal and Treaty Rights in Canada focus on redressing this bias. All of them apply contemporary knowledge of historical events as well as current legal and cultural theory in an attempt to level the playing field. The book highlights rich historical information that previous scholars may have overlooked. Of particular note are data relevant to better understanding the political and legal relations established by treaty and the Royal Proclamation of 1763. Other essays include discussion of such legal matters as the definition of Aboriginal rights and the privileging of written over oral testimony in litigation.
